[WALKING MAP]

WALKING + BIKING IN DOWNTOWN (AND BEYOND)

What's the best way to get to know Bend? On foot, of course! Or by bike, skateboard, scooter, or being pulled along in a bright red wagon if that's your thing. With scores of dedicated car-free paths, quiet streets, and interconnected trails leading to grassy, frolic-ready parks, Bend is at its best when seen free from the frame of a windshield.

Stroll along the Deschutes River looking for warblers or imagine the barons who lived in historic homes. There are pocket parks for people watching and public art to help you dream. You can discover funky shops in hidden corners and follow your nose to waffles and coffee. Did you know there's a secret "fairy path" right in the heart of Bend that you'd never find in a car? (You must find it yourself!) So park the car. Stretch your legs. Leave the fast, the gas, and the traffic behind. This is Bend. Life at 2 m.p.h. never felt so fun.
